

WELDSTONE

#10250-CS

WELDSTONE is THE MASTER DISTRIBUTOR of READY WELDER Products
U.S. Patent #6.066.834 / Canadian Patent #2233837 / ©2003 Ready Welder Corporation

The Most powerful, affordable, portable, versatile MIG Welder in the world!

The **Ready Welder Model #10250-CS** is most frequently used by welders and welding facilities wanting a MIG Spool Gun attachment to run off their Miller, Lincoln, Hobart, and Esab machines. This model is an excellent choice for welders that have engine drivers or those that weld aluminum in the shop connected to a MIG or Stick machine. The **Model #10250-CS** is about 1/3 of the cost of most other manufacturer's spool guns. Most of these machines already have the ground cable built into them, therefore no ground cable is supplied. The **Model #10250-CS** can run off of batteries by the user supplying the ground cable and the series cable for the batteries. This model also includes our AC to DC Power Converter to supply 24 VDC to CC (Constant Current) Stick welding machines.

The **Model #10250-CS** has a one year 100% parts and labor factory warranty. The Cold Switch was manufactured for the safety of different types of customers such as Navy, Army, Welding Shops, Etc. With the Cold Switch, the Ready Welder will only create an arc when the trigger is pulled, allowing you to lay the welder down with no worries.

Ready Welder II Model 10250-CS Features:

- Cabled as a spool gun attachment for all DC output welders
- Welds Steel, Stainless, Aluminum, and other Metals
- Can Connect to Batteries
 - 18 Volt Battery Can do Thin Sheet Metal
 - 24 Volt will Single Pass 1/2" @ 220 amp
 - 36 Volt will Weld up to 3/4" @ up to 350 amp
- Welds 22 Gage to 3/4" Material
- Ground Cable not supplied
- Connects to other MIG/Constant Voltage, Stick/Constant Current Welding Machines
- AC to DC Power Converter to Drive Gun Controls When Connected to CC/Stick Machines
- Uses Wire Sizes from .023 to .040 Without Changing Rollers
- Uses Heavy-Duty Tweco Quality Front End Consumables

- Wire Speeds of 50 Inches to 900 Inches Per Minute
- Twenty Foot Power Leads (expandable 100ft) with Quick Disconnects
- Built-in Gas Valve

Ready Welder II Case Includes:

- RWII High-Impact MIG Gun
- Twenty Foot Power Leads
- One Spool of 0.035 Flux Core Wire
- Extra Tips and Gas Hose Fitting
- Ten Extra Feet of Gas Hose
- Foam Lined Molded Briefcase
- AC/DC Power Supply to Drive Gun Controls when Connected to a CC/CV Power Source
