SITE-VAULT™ SECURITY SYSTEM PATENT PENDING

Innovative system locks at three points

- Three locking points versus only two on competitive locking systems. Cover plates protect the three lock hooks from being bent, broken, cut or pulled out to break-in.
- Full-length, high-strength lock console protects the system and reinforces the front of the lid or door. Requires only one padlock versus two on competitive systems.
- Padlock installs inside the fully-welded 14-ga. steel housing where it is nearly impossible to pry, cut or knock out to break-in.
- Exclusive to JOBOX, the fluorescent reflective orange tape indicates when the chest is unlocked—an innovative design making it easy to check security at night from a distance.

EZ-LOADER® SKID BOLSTERS PATENT PENDING

Fork lift from any side

- Easily load or unload heavy, fully-loaded boxes from any side on trucks, trailers or docks
- JOBOX side loading ability provides time-saving and safety advantages that the competition does not offer when moving boxes around the site or to upper floors
- One-piece 7 ga. steel skid bolsters reinforce the bottom of the box for heavier loads and protect the bottom if dropped
- Use 5/16" self-tapping screws to install optional casters

TEXTURED POWDER PAINT FINISH

- First in Industry to utilize Highest Quality Paint
- Able to Customize Colors if Required (Minimum Order Quantities Apply)

Improved durability over liquid paint

- 10X more corrosion resistance
- 5X more abrasion resistance
- 2X more chip resistance
- 2X more scratch resistance

HIGH-CAPACITY DROP-FRONT CHEST

Industry 1st Design

- 37% more capacity for storing taller, bulkier equipment
- Extra wide, low-incline ramp supports up to 1,000 lbs for safe and easy loading and unloading

Site-Vault™ Security System

- Full length console & two locking points make the lid virtually impossible to bend or pry
- 14 gauge steel lock console to prevent being pried, cut or knocked out during attempted break in

EZ-Loader® Skid Bolsters

- Fork Lift accessible from all sides allows easier loading & unloading
- 7-Gauge, one-piece steel bolsters resist damage when dropped

PIANO BOXES

SITE-VAULT™ SECURITY SYSTEM

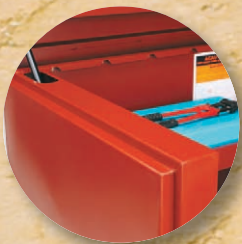

50% more locking points than competitive locking systems

- 3-Point lock engagement is virtually impossible to bend or pry open

2X WIDER SIDE WALLS

- Formed side wall design allows the door to overlap the side walls when closed to resist pry bars and moisture
- Two deep storage bins located on both side walls

LIFT-N-STOW SHELF

- Bottom shelf on most models lifts up for easier loading and unloading of large items in the bottom

EZ-LOADER® SKID BOLSTERS

Fork lift from any side

- 7-Gauge, one-piece bolsters resist damage when dropped

GAS SPRING GUARDS

- Gas springs assist with opening and closing the door. They are embedded in the side walls and protected from damage and jamming. Guards reinforce the side walls

RECESSED HANDLES

- Extra tall and deep recess areas prevent pinched fingers and damage to the handle

TRUCK STORAGE

TRUCK STORAGE SOLUTIONS FROM

JOBBOX

Combine JOBBOX premium truck storage products with the rugged durability of KargoMaster ladder racks and you've got an unparalleled truck storage solution. With more security, more durability and more options, there is more reason than ever to trust your work truck to JOBBOX.

A History of Leading In Innovation

Formed shortly after World War II, Delta Consolidated Industries made storage silos for the many farms in the Mississippi River delta area.

In response to customer requests, the company used its metal working experience to build tool storage boxes for their trucks. As more truck owners saw these first truck boxes, the demand for them quickly outgrew orders for the silos.

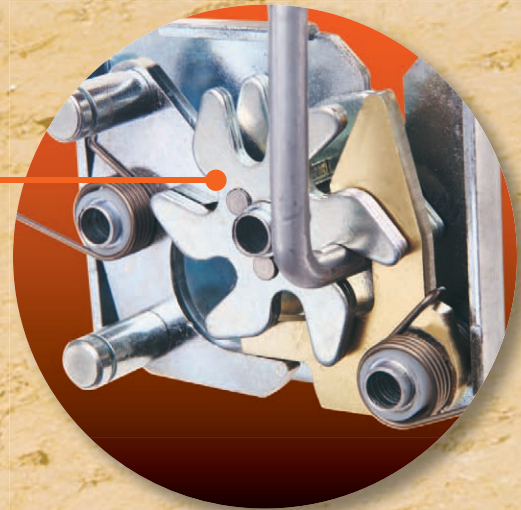

The company expanded its selection of the truck boxes and started selling the first commercially-produced truck boxes. It had created an entirely new product category.

Today, our JOBOX Premium Truck Storage Solutions include many exclusive innovative features.

GEAR-LOCK II[™] LOCKING SYSTEM

- Self-adjusting dual rotary lock system on Crossovers, Innersides and Chests
- Ratcheting action pulls lid tight to resist over 2,000 lbs. of prying and pulling force
- Provides the highest level of security and moisture resistance available

SELF-ALIGNING LATCH HOOPS

- Cannot be bent or pried out of the lock
- Hoops pivot from side-to-side to automatically align in the Gear-Lock II[™] System
- Guarantees a tight seal first time—every time

StorAll® GRIP-AND-RELEASE™ DRAWER STOP SAFETY SYSTEM

- Grip the handle to release latching system
- Release the handle to lock the drawer in one of the multiple latching points
- Allows safely opening and closing a fully loaded drawer when parked on an incline

FUEL-N-TOOL™ COMBO ALUMINUM LIQUID TRANSFER TANK WITH REMOVABLE CHEST

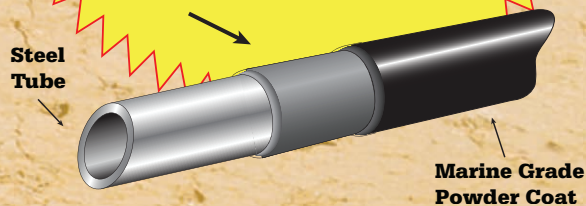

- Offers the convenience of a 72-gallon capacity L-shaped transfer tank and a removable chest providing 4.5 cubic feet of secure storage space in one unit

LADDER RACKS WITH SUPERIOR CORROSION-RESISTANT FINISH

- KargoMaster Steel Ladder Racks have a superior corrosion-resistant and durable finish. No other rack offers a comparable finish
- Yellow zinc dichromate layer creates a moisture barrier and provides a better surface for the next layer to adhere to
- Marine-grade polyester epoxy powder paint finish has superior abrasion and corrosion resistance. Keeps its glossy appearance

ALL KargoMaster steel racks are YELLOW ZINC PLATED or PRIMED for SUPERIOR CORROSION PROTECTION!

ALUMINUM CROSSOVERS

GEAR-LOCK II™ LOCKING SYSTEM

- Self-adjusting dual rotary lock system
- Ratcheting action pulls lid tight to resist over 2,000 lbs. of prying and pulling force
- Provides the highest level of security and moisture resistance available

**FOR COMPLETE
FITMENT
INFORMATION,
PLEASE SEE
PAGES 28-29**

SELF-ALIGNING LATCH HOOPS

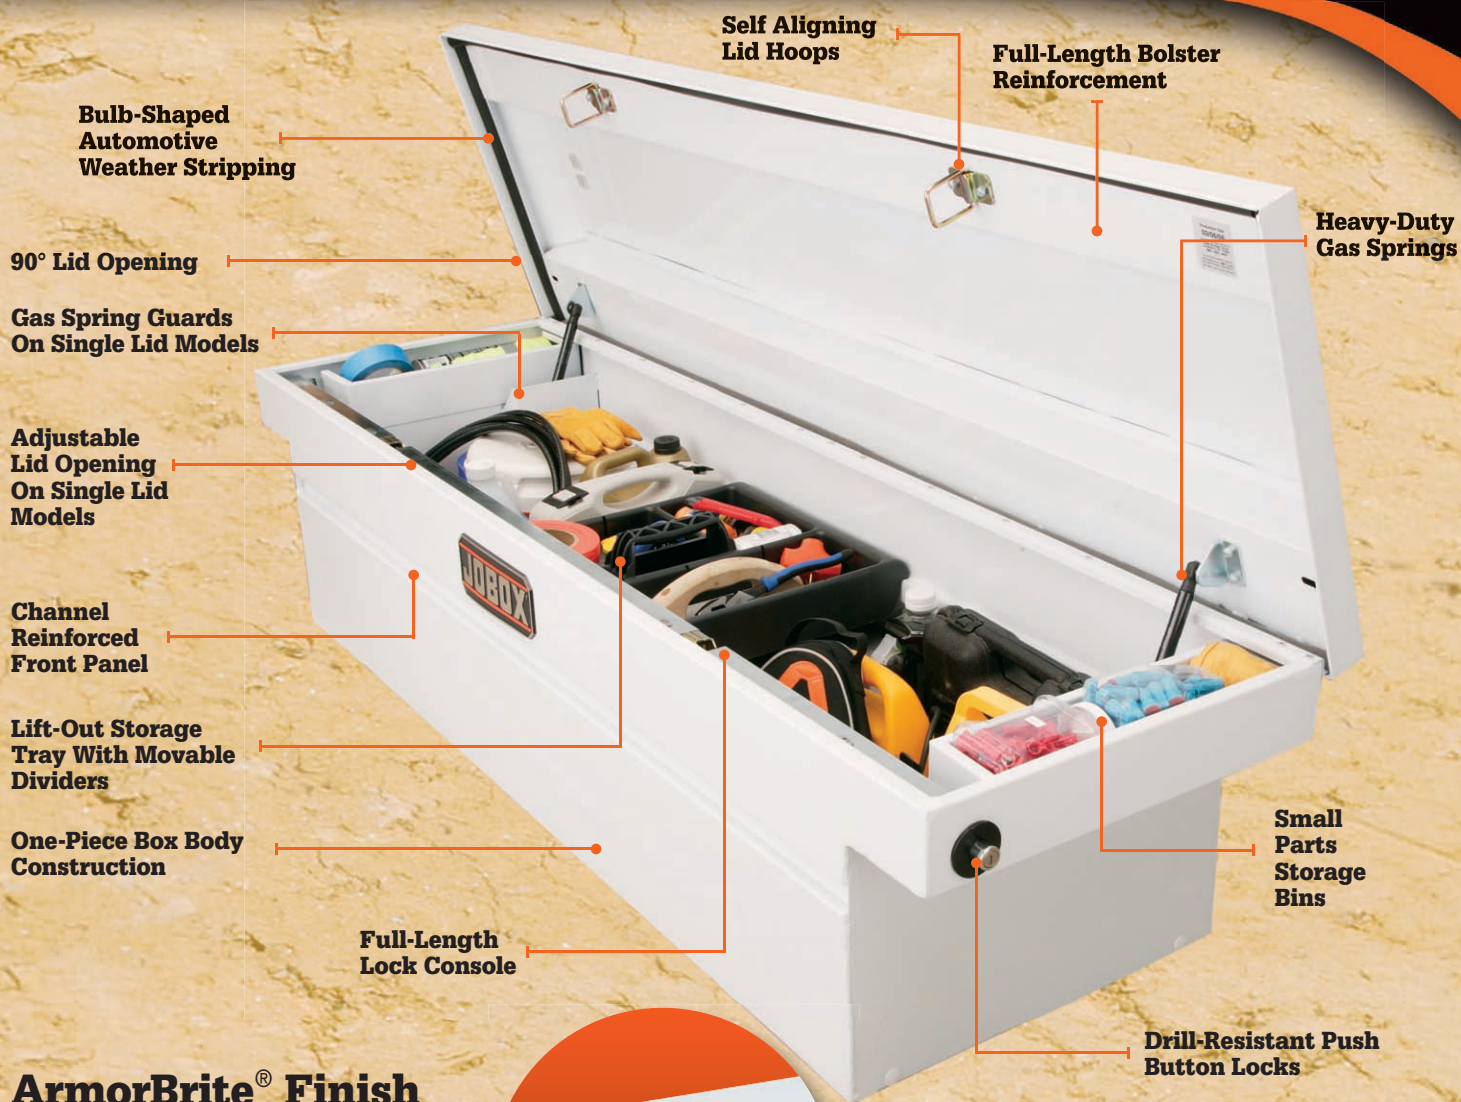

- Cannot be bent or pried out of the lock
- Automatically aligns in locking system
- Guarantees a tight seal first time—every time

DEEP BEVELED EDGE LID DESIGN

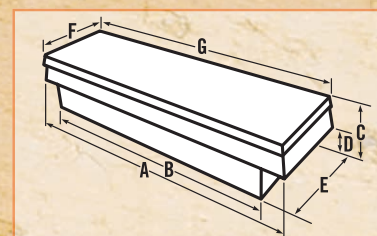

- Body fits deeper inside the lid keeping out wind driven rain and prying tools
- Creates superior moisture protection and security for your cargo

ArmorBrite® Finish

Steel Crossovers feature our durable ArmorBrite® white powder paint finish for superior rust resistance

StorAll STEEL DRAWER STORAGE

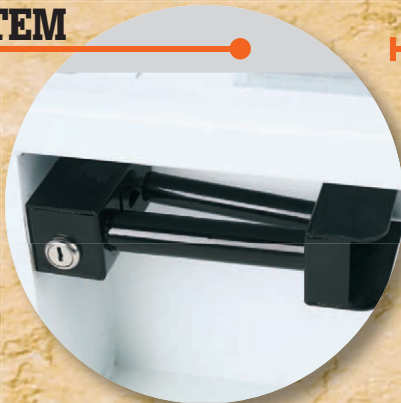

Extreme Durability, Safety, and Versatility

UP TO 50% MORE DRAWER WEIGHT CAPACITY THAN COMPETITIVE PRODUCTS

- 650-lb. drawer weight capacity
- Drawer travels on 1,000-lb. rated rear roller bearings and 250-lb. rated front conveyor bearings. Rear bearings ride inside 12-gauge steel channels
- Makes opening and closing heavy drawers easy

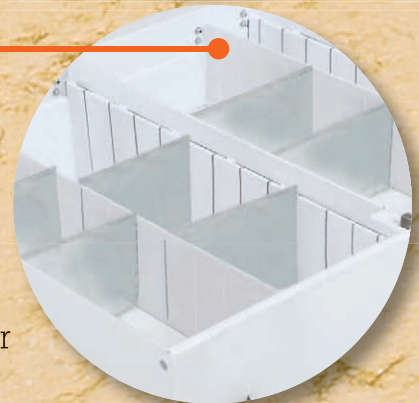

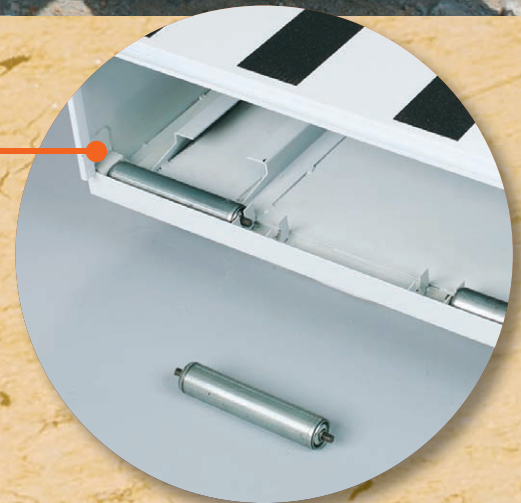

GRIP-AND-RELEASE™ DRAWER STOP SAFETY SYSTEM

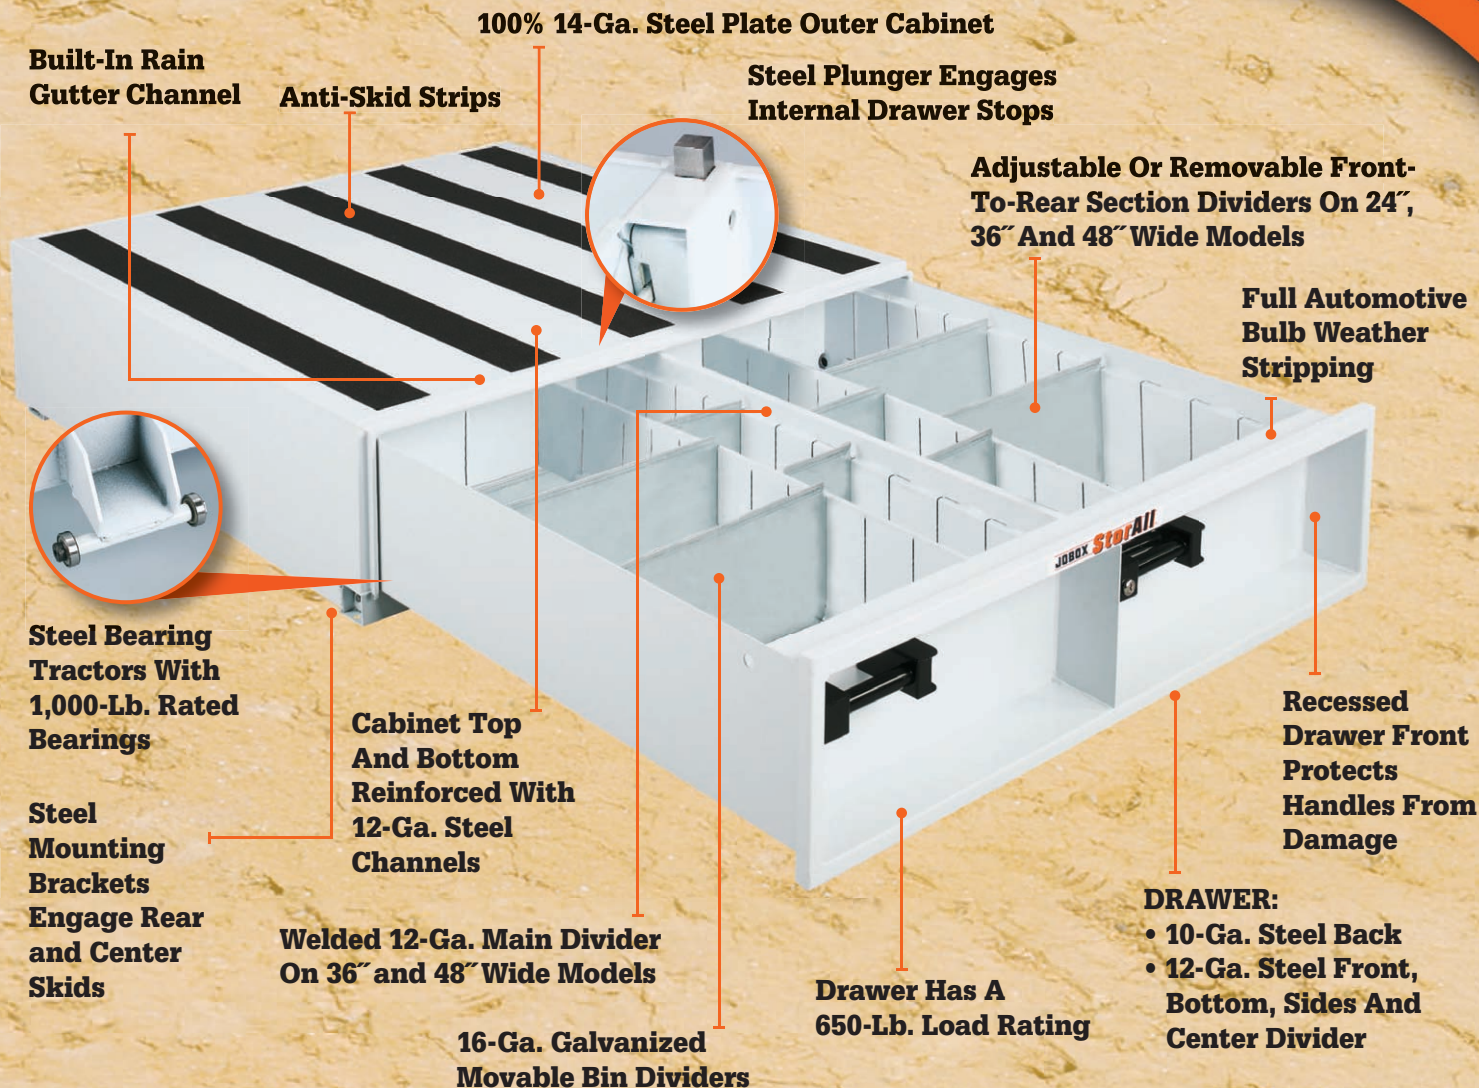

- Release handle and the drawer safely locks into position
- Allows you to safely open and close heavy drawers on sloped surfaces

UP TO 20% MORE STORAGE CAPACITY

- Both Front-to-Rear sectional dividers and bin dividers are adjustable
- Customize your drawer to fit your specific storage needs

ALUMINUM DRAWER STORAGE

1403980

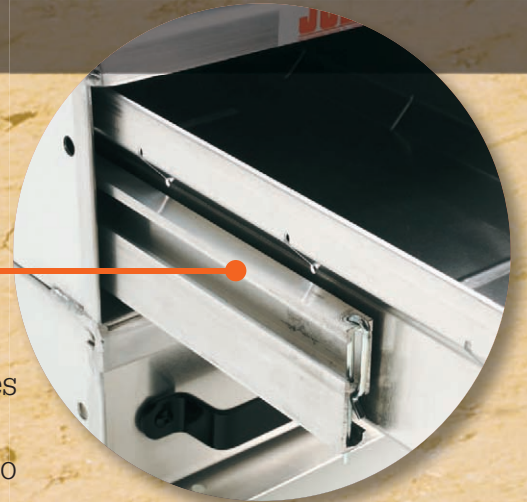

1406980

Convenient, Versatile Drawer Storage Systems

.125 Aluminum tops support up to 200-lb. load per sq. ft.

Heavy-Duty Drawer Glides

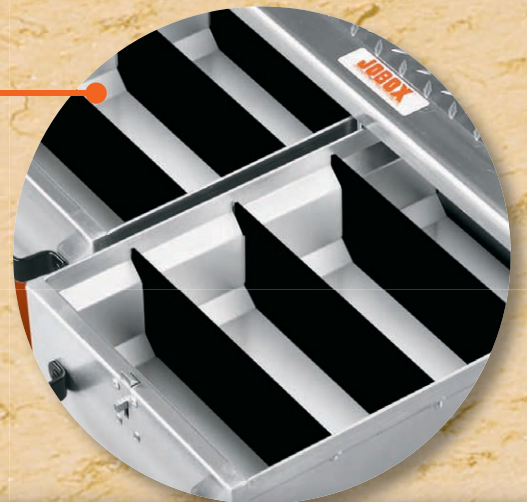

- Extruded heavy-duty drawer glides support up to 75 lbs. per drawer
- Latches automatically lock the drawers when closed. Latch releases above the handles are easy to reach
- Pins prevent the drawers from rolling off the glides. They are easy to remove when the drawers need to be removed

Versatile Drawers & Dividers

Nine models available

- 50" Long Floor Models with one, two, three or four drawers
- 50" Long One-Drawer Wide Stacked Models with two, three or four drawers
- 26" Long Models with one or two rows of three drawers
 - Moveable dividers to create different size bins.Additional dividers are available

1406980

1403980

Drawer storage is perfect for use in service vans, minivans, SUV's or motorhome basements. Removable dividers allow for segmenting small and larger tools, supplies or parts.

Heavy-gauge aluminum is light enough for easy mobility and transport and durable enough to stand up to heavy loads on top of and in drawers

STEEL UNDERBEDS

NEW & IMPROVED DESIGN

Steel Models Available in Armor-Brite™ White or Black Powder Paint

DROP DOWN DOOR

- Exclusive new design allows door to drop down out of the way for easier loading and unloading of large, heavy or awkward equipment

SEE NEXT PAGE FOR ALL MODELS

3-POINT LOCKING SYSTEM

- System locks the door at the top and both sides for strength and security. It draws the high-strength door tight against the bulb-shaped weather stripping to seal out moisture and dust

INDUSTRIAL-GRADE STEEL HINGES

- Rugged 3" long, 7/8" outside diameter hinges with 1/2" diameter stainless steel pin

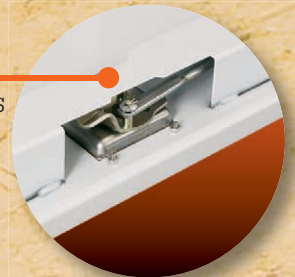

QUICK-RELEASE KEYWAY CONNECTORS

- Connectors allow the door end of the support cable to be easily and quickly disconnected to allow the door to drop down

ONE-PIECE LOCK HOUSING

- Heavy-duty steel housing covers the locking system and locking rods to prevent damage and jamming. Housing adds extra strength to the door

EXTENDED RAIN GUTTER

- 3/4" wide rain gutter surrounds the door opening to channel moisture around the opening to protect the contents

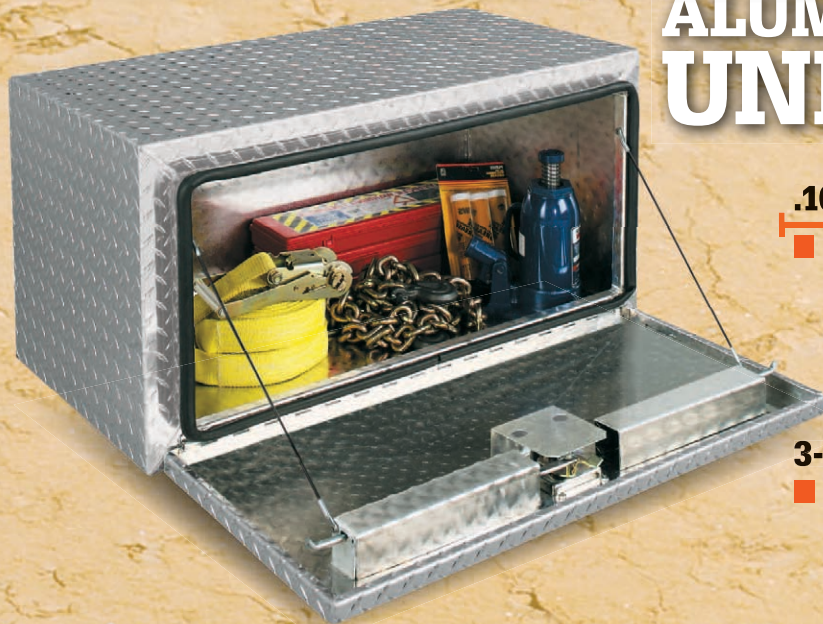

ROTATING T-HANDLE

- T-handle draws the door tight against the weather stripping and locks at 3-points. Reinforced cam lock for superior security

ALUMINUM UNDERBEDS

.100-GAUGE ALUMINUM

- High-strength door construction with continuous 3/8" dia. hinge with 1" knuckles for superior strength and durability

3-POINT LOCKING SYSTEM

- System locks the door at the top and both sides for superior strength and security. It draws the high-strength door tight against the bulb-shaped weather stripping to seal out moisture and dust

ROTATING T-HANDLE

- Rotating handle draws the door tight against the weather stripping and locks it at 3-points. Drill-resistant lock cylinder prevents break-ins

TOPSIDES

Available ClearCoat, Black Powder Paint or Unpainted Finishes

Available in Armor-Brite® White or Black Powder Paint

- **ALUMINUM Topsides Feature .100 Gauge Aluminum** reinforced doors, center posts and ends
- **STEEL Topsides Feature 14-Gauge Steel** reinforced doors, center posts and ends
- **Automotive-Style Bulb Weather Stripping** surrounds the door opening to seal out moisture and dust

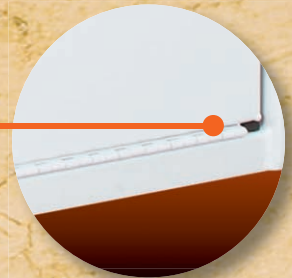

47" Models have one door

Mounting Kit Includes support legs and hardware

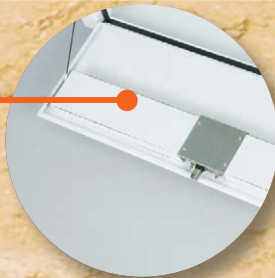

FULL-LENGTH PIANO HINGES

- Full-length hinge on each door provides extra security against break-ins and gives extra durability and reliable service

THREE-POINT LOCKING SYSTEM

- Doors are locked at the top and both sides to resist break-ins. Covers protect the locking system and reinforce the high-strength doors

HIGH STRENGTH DOOR CABLES

- High-strength coated galvanized steel aircraft cable door supports handle 300-lb. load

TALL, REINFORCED DOOR FRAMES

- 12" tall door openings for easier access. Door frames are recessed for superior strength and security

ROTATING T-HANDLES

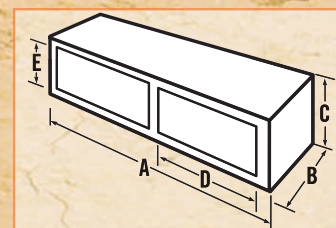

- Handles have reinforced cam locks and are sealed to prevent moisture from getting inside

LIQUID TRANSFER TANKS

433000

ALUMINUM Transfer Tanks are designed for the toughest conditions. Made of heavy-duty .125 gauge treadplate aluminum, the tanks have internal baffles for reinforcement and to control the flow of the contents when moving. 2" NPT Bungs on both ends for easier access. Lockable Filler Cap and Coupler prevent excessive pressure build-up. All tanks have been pressure tested for leaks

The Fuel-N-Tool™ Model 433000 offers the convenience of a 72-gallon capacity L-shaped transfer tank and a removable Chest providing 4.5 cubic feet of secure storage space in one unit.

72-Gallon L-Shaped Tank

- Two Full Center Baffles add extra strength and control the flow of the contents when moving
- 2" NPT Reinforced Bungs allow mounting a pump on either side of the tank. Filter system is recommended
- Four High-Strength Brackets for securing the tank to the bed. All brackets must be bolted to the truck bed

Removable, Portable Chest

- Chest provides 4.5 cubic feet of high-strength storage
- RSL Rigid Structural Lid, Heavy-Duty Adjustable Lid Strikers and High-Strength Body resist break-ins
- Self-Rising Lid has two heavy-duty gas spring lid lifts
- Leak-Proof Stainless Steel Paddle Handles and Wide Live Cell Weather Stripping resist moisture and dust

437000

439000

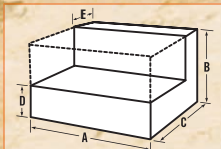

438000

Caution:

Tank not to be used commercially, or for interstate commerce. Tank not to be connected to fuel system as an auxiliary tank. Tank not to be used for flammable fuels, under DOT regulations. Tank does not meet title 49 requirements of the federal register governing transportation. Tank to be used for combustible fuels only. Tank meets the requirements pertaining to CAN/CSA B-621-98 regulations. Tank to be hoisted only when empty. Tank to be securely bolted to truck bed. Do not cut or weld on tank, under any circumstances.

Must use an automatic shut off nozzle. Must use a fuel filter in pump system. Tank must be vented at all times. Remove pre-vent cap with caution. Aluminum tanks are not to be pressurized over 6 PSIG. Steel tanks are not to be pressurized over 8 PSIG. Useage of tanks is regulated by State and sometimes local ordinances. Contact your local Fire Department for details. Contact your local Fire Chief or Fire Marshal to determine your local restrictions.

Canadian CSA B-621-98 Regulations do not apply to the tanks on Pages 40 & 41

The Safety Capacity is the MINIMUM capacity of the tank when filled to the bottom of the Bung Fill tube, not the maximum capacity of the tank.

STEEL Tanks feature heavy-duty 14-gauge steel construction for long-term durability. Internal baffles reinforce the high-strength design and control the flow of the contents when moving. 2" NPT Bungs on both ends for easier access. All tanks have been pressure tested for leaks

STEEL TRANSFER TANKS FEATURE:

- Built-in Lifting Rings to assist with lifting and moving an EMPTY tank
- Lockable Filler Cap and Coupler prevent excessive pressure build up
- Heavy-Duty Brackets to secure the tank to the truck bed. All brackets must be bolted to the truck bed
- Safety Fill Capacity allows space for the contents to expand in warm weather. Maximum Fill Capacity leaves no space for the contents to expand

SUPPORTS UP TO 1,700-LB. LOADS

- High tensile strength 2" dia. steel tubing with 5" swaged joints for super strength and load-carrying capacity
- Superior corrosion resistant finish with yellow zinc dichromate undercoat with marine-grade polyester epoxy powder coat finish
- Corrosion-resistant self-locking hardware with yellow zinc dichromate finish
- Full-length bed rail support mounts available to distribute the load over the length of the bed walls
- Optional "No-Drill" clamp-on mount kit available
- Fourth crossbar for extra strength to support and prevent long and heavy loads from sagging

Complete Line of Rack Accessories on Page 48-49

APPLICATION GUIDE

A Complete PRO II Ladder Rack Requires Ordering A Side Channel Kit AND A Leg & Crossbar Kit.

Mounting Options:

- All pickup truck racks include four standard mounting plates
- To spread the load of heavy cargo on the rack over a larger area, see the Optional Full-Length Bed Rail Support Mounts on Page 49
- To eliminate drilling holes in the top of the bed rail, use the Optional “No Drill” Clamp-On Mounting Kit on Page 49 to secure the rack to the truck

Note: Due to the thin bed sheet metal in 1999 and up Silverado, Sierra and all Tundra models, we urge you to order the optional Full-Length Bed Rail Support Mounts to prevent damage to the truck.

KARGO MASTER

SERVICE BODY RACKS

SUPPORTS UP TO 1,700-LB. LOADS

- High tensile strength 2" dia. steel tubing with 5" swaged joints for super strength and load-carrying capacity
- Superior corrosion resistant finish with yellow zinc dichromate undercoat with marine-grade polyester epoxy powder coat finish
- Corrosion-resistant self-locking hardware with yellow zinc dichromate finish
- Quick release rear crossbar provides easier access to load or unload large, bulky cargo
- Fourth crossbar for extra strength to support and prevent long and heavy loads from sagging
- Smooth round components reduce wind noise and resistance

LIFETIME FRAME WARRANTY

Complete Line of Rack Accessories on Page 48-49

- Models available for all makes and models of 8, 9, 11, or 12 ft. long platform bodies.
- Available in standard and extended length
- Extended length racks position front crossbar beyond windshield on extended cab trucks. This reduces wind noise, looks better, and provides more support for long cargo.
- Offset mount tabs provide 2" length adjustment. Rear mounting brackets bolt or weld to body frame.
- Offset leg cups provide 2" length adjustment. Match height of cab guard by cutting rear legs.

**LIFETIME
FRAME
WARRANTY**

Product Warranty Information

JOBBOX Products Limited Warranties

This product warranty is made by Delta Consolidated Industries, Inc. (DCI) to only the original purchaser and it is valid as indicated in the table below from date of purchase, upon presentation of the original sales receipt at the time the warranty claim is made.

DCI warrants its product to be free from defects in materials and workmanship at the time of the sale. This warranty does not cover damage caused by accident or unreasonable or unintended use of the product. Modification, disassembly and/or reassembly of the product will invalidate this warranty. Damage to the contents of the box, vehicle or other consequential damages of whatever kind are hereby excluded from this warranty.

Crossover, Innerside, Chests, Topsides and Underbed Truck Boxes	5 Years
On-Site Storage Products.....	1 Year
Liquid Transfer Tanks.....	1 Year

KargoMaster Ladder Rack Lifetime Frame Warranty

KargoMaster, Inc. extends to the original purchaser of a KargoMaster product a Lifetime Frame Warranty. If the rack cracks, bends, buckles, or structurally fails in any way, KargoMaster, at its option and expense, will replace or repair the rack. For details, see the Installation Instruction Booklet included with the rack or contact Customer Service.

To Obtain Warranty Service:

In the case of a nonconforming product, you should return the product to the place where it was purchased. The seller will consult with DCI and then either repair or replace the product, at DCI's sole option, if it is determined that the product is defective in either material or workmanship.

If you feel that you have not been offered a satisfactory resolution to your warranty claim, you may submit a written request for further consideration to the Warranty Department, Delta Consolidated Industries, Inc., 4800 Krueger Dr., Jonesboro, AR 72403-6176. Explain in writing the nature of the problem and why you are dissatisfied with the resolution of your warranty claim. You must include the Model Number of the product and a copy of the sales receipt with your request for further consideration. You will receive a response from DCI within 30 days.

Note: This warranty applies solely to domestic sales and shipments made within the continental USA. It gives you specific legal rights in the USA, and you may have other rights afforded you by one or more states in the USA. If this product was purchased outside of the USA, this warranty will be governed by the warranty laws in effect in the jurisdiction in which the product was purchased, on the date that such purchase occurred.

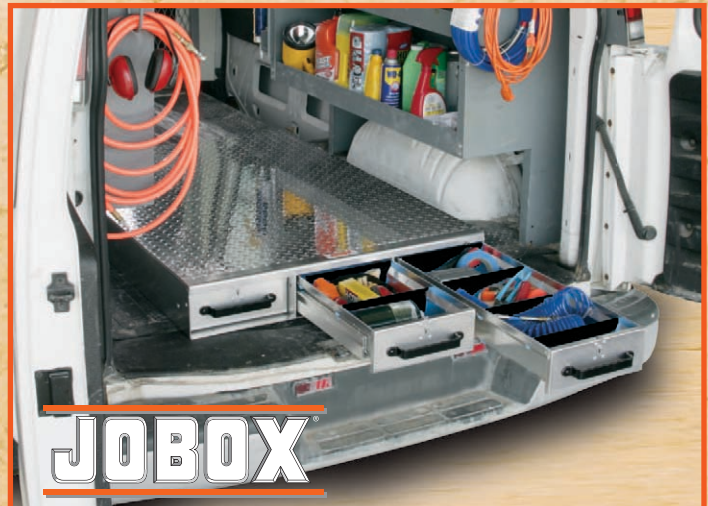

How To Obtain Keys And Replacement Parts

Please have the following information available to request keys, gas springs or replacement parts:

- The Key Code stamped on your key or the outside cover of the lock cylinder
- The Model Number on the label on the barrel of the gas spring
- For other replacement parts, the Model Number of your product

To obtain parts, call our Customer Service Department at the number below between 8:00 AM and 4:30 PM Eastern Time Monday thru Friday. Press 1 when prompted. To send an email, use the address below.
